

# Corrugated Lath Strip™ White

CLSW 3845-18

Drainage Strip For EIFS

## Applications

☑ EIFS

*Corrugated Lath Strip protects the drainage gap in water managed EIFS.*

## An Air Gap Protects You Against Moisture

Think exterior rigid foam insulation is a perfect barrier system? Think again. Learn a lesson from the EIFS industry: a drainage gap behind rigid insulation drains the wall and prevents moisture damage. Create a predictable air gap with Corrugated Lath Strip from MTI and stay dry.

*Corrugated Lath Strip ensures 1/8" air gap*

## The MTI Advantage

- ☑ Creates Air Gap
- ☑ Maintains Drainage & Minimizes Thermal Loss Behind EIFS & Rigid Insulation
- ☑ Easy to Install
- ☑ Protects Drainage Gap from Finish Coat

*Corrugated Lath Strip is available in 50 ft rolls.*

## Installation

- Install Corrugated Lath Strip™ White over the water resistive barrier at the base of the wall, window heads and horizontal expansion joints
- Wrap with insect screen
- Fasten with staples or other mechanical fasteners 24" on center
- Corrugated Lath Strip should extend below the EPS foam to protect the drainage gap from being covered by the base and finish coats
- Install EPS foam and EIFS components per manufacturer's instructions

Complete Installation at [MTIdry.com/installation](http://MTIdry.com/installation)

## Technical Information

<b>Material Description</b>	High impact polystyrene sheets, 0.024 inch (0.6 mm) thick, formed with corrugations.		
<b>UV Exposure</b>	Over 9 weeks in accelerated UV testing (ASTM G 154)	<b>Fungi Resistance</b>	Does not support fungal growth (ASTM C 1338)

### Corrugated Lath Strip White

CLSW 3845-18

<b>Depth (drainage gap)</b>	1/8 in (3mm)
<b>Roll</b>	50 ft
<b>Bundle</b>	250 ft / 5 rolls
<b>Box</b>	1,500 ft / 6 bundles
<b>Pallet</b>	18,000 ft
