

MTI Mortar Control Solution

Better Mortar Control is Better Moisture Control

Works Better. Costs Less.

Features

Mortar blocking fabric

Rigid, not fluffy

15.75" wide

96% pre-consumer recycled plastic

Benefits

Prevents mortar bridging, moisture transfer

Integrated insect barrier

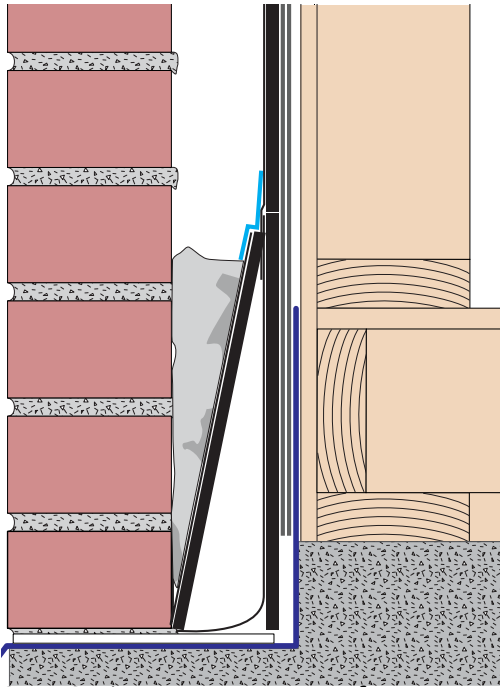

Clear drainage path

Ease of installation

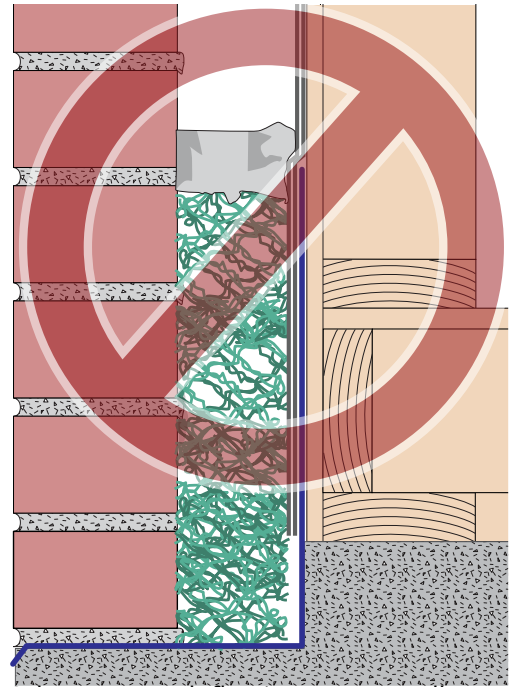

Reduces labor costs

One size fits any cavity

Qualifies for LEED points

Sure Cavity prevents mortar from bridging the cavity, which prevents moisture bridging.

Other mortar deflection systems allow mortar AND moisture to bridge the cavity.

Keep It Dry. Specify MTI.
