Tuckpoint Retrofit Weep™
For Renovations & Large Masonry Units

Weeps For Retrofits & Oversized Stone

Unique applications require special weeps. Tuckpoint Retrofit Weeps are the solution for drainage with oversized masonry units as well as renovations where mortar is removed to add weeps.

The MTI Advantage

- Form Bottom of Bed Joint Mortar
- Weep Directly on Flashing
- Weeps Standard or Oversize Masonry Units
- Translucent to Blend with Mortar

Applications

- Retrofits & Renovations
- Natural Stone
- Full Brick

14" long Tuckpoint Retrofit Weeps are available in 50' rolls or 2 1/2" wide pre-cut weeps
**Installation**

1. Removing existing mortar at lowest point in cavity to fit weep
2. Space weeps no more than 10" on center
3. Insert Tuckpoint Retrofit Weep™ and tuck point mortar on top side of weep only
4. Tool joints and lightly score legs at face of wall and crack off by pushing downward while mortar is still plastic
5. Finish tool joint and brush
